RE: State Requirements for Stream Channel Alterations on Natural Streams.

This office has been contacted by the Division of Oil Gas and Mining regarding your proposed dredging project on Pine Creek near Bicknell. A State of Utah Stream Alteration Permit is required prior to beginning construction. A search of our records shows no permit has been filed for, or issued for this project. For your convenience I have enclosed an application form.

If you have any questions or need further clarification, please feel free to contact me at 538-7374.

Sincerely,

Jim Wells
Stream Alteration Specialist
